**Update:**

**My Callander Cares Community Survey**

Thank you to everyone who participated in the Callander Cares Community Survey. A total of 335 responses were received, representing 8.7% of the total Callander population.

This is a tremendous response rate which generated an abundance of rich and valuable comments to the open-ended questions. Staff are diligently working through the analysis and will have the survey findings available for public viewing in early to mid-October.

Congratulations to Susan Dell who won the iPad in the final draw for prizes for community survey participation.
